CAREER OBJECTIVE

I am a motivated software learner who likes building real projects. I know the basics of coding and enjoy improving code, adding features, and testing to help users. I have learned C, C++, JavaScript, HTML, CSS, and the MERN stack. I built a full-stack Recipe Finder Project. I am disciplined, quick to adapt, and work well on teams.

EDUCATION

Bachelor of Computer Applications

Maharaja Agrasen Institute of Management and Technology

12th

Government Senior Secondary School

10th

Surindera High School

SKILLS

- **Programming Languages:** C, C++
- **Web:** JavaScript (ES6+), HTML5, CSS3, React
- **Tools & Libraries:** Git, npm, Axios, React Router
- **Databases:** MongoDB (CRUD operations, Mongoose)
- **Testing & Debugging:** Browser dev tools, console debugging
- **Concepts:** RESTful APIs, responsive design, component-based architecture, state management

CERTIFICATION

- Internship in "**MERN Stack from Sensation Software Solution**"

INTERNSHIP

Sensation Software Solutions Mohali | MERN Stack

- Developed and deployed responsive full-stack web applications using MongoDB, Express.js, and React.js.
- Gained experience in RESTful APIs, frontend-backend integration, and database management.
- Collaborated in an agile team environment, enhancing skills in communication, confidence, teamwork, and time management.

PROJECT

Recipe Finder | Full-Stack Web Application (MERN)

- Built a responsive recipe search platform using **React, Express, and MongoDB**.
- Implemented search, filter, and save functionalities for recipes based on ingredients, cuisine, and dietary preferences.
- Handled API integration with Axios, state management in React, and secure CRUD operations.
- Designed RESTful endpoints and managed user data with Mongoose.
- Ensured a responsive UI for both desktop and mobile views.
